NSQF V3.1 Research Validation: 5 Sector Roadmaps

Generated via CareerOrbit LLM Generation Engine (V3.1)

Sector: Mobile Phone Repair

Target Profile: High School, Tier-2 City, Male

NSQF Qualification Path: Mobile Repair Technician Trainee

- **NSQF Level:** 3.5
- **Notional Hours:** 120 Hours

- **NCrF Credits:** 4 Credits
- **Income Range:** ₹12000 - ₹18000

The Roadmap

Module 1: Mobile Repair Foundations, Safety, Communication and Work Discipline

Portfolio Evidence Task: *Create and upload a smartphone photo-note portfolio containing: a labeled diagram of a mobile phone's main parts drawn on paper, a 10-point repair safety checklist written by you, and a 1-minute self-recorded video explaining how you will talk to a customer before accepting a phone for repair.*

NOS Code	NSQF Domain	Subtopic	Practical Task
TEL/N0101	Professional Theoretical Knowledge	Role of a Mobile Repair Technician and Service Workflow	Create a simple service workflow chart on paper with 6 stages: customer intake, visual check, fault note, estimate, repair/testing, delivery. Take a clear photo of the chart using your smartphone.
TEL/N0102	Professional Theoretical Knowledge	Basic Mobile Phone Parts and Their Functions	Draw a smartphone front and back view on paper and label at least 10 parts. Capture and save one photo as portfolio evidence.
TEL/N0103	Aptitude, Mind-set, Soft Skills, Employment Readiness & Entrepreneurship Skills	Repair Safety, ESD Awareness and Battery Handling	Write a 10-point safety checklist for handling customer phones, batteries, and chargers. Record a 30-second video reading the checklist aloud and

NOS Code	NSQF Domain	Subtopic	Practical Task
			store it on your smartphone.
TEL/N0104	Aptitude, Mind-set, Soft Skills, Employment Readiness & Entrepreneurship Skills	Customer Communication, Honesty and Job Intake Notes	Create a basic customer intake template in your phone notes app with fields for model, problem, visible damage, password status, charging status, and customer approval. Take a screenshot.
TEL/N0105	Aptitude, Mind-set, Soft Skills, Employment Readiness & Entrepreneurship Skills	Growth Mind-set, Patience and Professional Behaviour	Write 5 personal work rules in your notes app, such as 'I will not open a swollen battery phone without supervision.' Take a screenshot and save it.

Module 2: Mobile Fault Identification, Basic Diagnostics and Digital Service Records

Portfolio Evidence Task: *Prepare a smartphone-based diagnostic portfolio with screenshots/photos of: one fault classification chart, one symptom-to-part mapping note, one sample digital job sheet, and one customer issue analysis for a real or dummy phone.*

NOS Code	NSQF Domain	Subtopic	Practical Task
TEL/N0201	Professional and Technical Skills/Expertise	Common Smartphone Problems and Symptom Recognition	Create a two-column note on your smartphone: symptom and possible cause. Add at least 12 common problems and take a screenshot.

NOS Code	NSQF Domain	Subtopic	Practical Task
TEL/N0202	Professional and Technical Skills/Expertise	Visual Inspection and Non-invasive Diagnosis	Take one old or available phone and document 5 visible inspection points in your notes app. Add photos if possible and save as a mini inspection report.
TEL/N0203	Broad Learning Outcomes	Using Built-in Phone Tests and Settings for Diagnosis	On any smartphone available to you, check and note battery health clues, storage usage, sound settings, and network settings. Create a 4-point diagnostic note and capture screenshots where possible.
TEL/N0204	Broad Learning Outcomes	Digital Job Sheets, Estimate Notes and Repair Documentation	Create one sample digital job sheet in Google Docs, Notes, or any phone text app for a dummy customer and take a screenshot.
TEL/N0205	Level of Responsibility	When to Repair, Refer or Reject a Job	Make a three-section note titled Repair, Refer, Reject and list 4 examples under each. Save a screenshot.

Module 3: Software Troubleshooting, Service Support and Practical Problem Solving

Portfolio Evidence Task: *Create a proof bundle with screenshots showing you completed: a safe backup checklist, a software troubleshooting flow for one common issue, a reset/update decision note, and a customer-facing explanation message drafted by you.*

NOS Code	NSQF Domain	Subtopic	Practical Task
TEL/N0301	Professional and Technical Skills/Expertise	Basic Software Issues: Lag, App Crash, Storage Full and Hanging	Create a troubleshooting flow note for one issue such as 'phone hanging' with at least 5 steps. Take a screenshot as evidence.
TEL/N0302	Aptitude, Mind-set, Soft Skills, Employment Readiness & Entrepreneurship Skills	Safe Backup Awareness, Factory Reset Readiness and Data Consent	Write a customer consent note in simple English for backup and reset approval. Save it in your notes app and capture a screenshot.
TEL/N0303	Broad Learning Outcomes	Basic Update, Reset and Settings-Based Recovery Methods	On your own smartphone, document 5 safe software maintenance actions you can perform without causing data loss, such as checking updates or removing unused apps. Take screenshots of at least 2 actions.
TEL/N0304	Aptitude, Mind-set, Soft Skills, Employment Readiness & Entrepreneurship Skills	Explaining Technical Issues to Non-technical Customers	Record a 45-second audio or video explaining one mobile issue in simple customer-friendly language. Save the file on your smartphone.
TEL/N0305	Professional and Technical Skills/Expertise	Problem Solving Through Case-Based Thinking	Write 3 mini cases in your notes app: issue, likely cause, first action. Example: 'Not charging - dust in port - inspect and clean externally with care under supervision.' Screenshot the note.

Module 4: Work Readiness, Earnings Path and Entry into the Mobile Repair Market

Portfolio Evidence Task: *Build a job-readiness portfolio on your smartphone containing: a one-page trainee profile, a list of 10 nearby repair shops/service centers, a sample service price list, a WhatsApp-style customer response template, and a 30-day action plan to earn your first income.*

NOS Code	NSQF Domain	Subtopic	Practical Task
TEL/N0401	Level of Responsibility	Entry-Level Job Roles, Shop Apprenticeship and Income Pathways	Use your smartphone to list 10 local mobile repair shops or service centers from Google Maps or local search. Save names, area, and contact numbers in a note.
TEL/N0402	Aptitude, Mind-set, Soft Skills, Employment Readiness & Entrepreneurship Skills	Basic Pricing Awareness, Ethics and Customer Trust	Create a simple sample rate card for 8 common services like screen guard fitting, software cleanup, charging port cleaning, or inspection. Mention that final rates depend on model and condition. Take a screenshot.
TEL/N0403	Aptitude, Mind-set, Soft Skills, Employment Readiness & Entrepreneurship Skills	CV, Introduction Message and Interview Preparation	Write a short trainee CV in your notes app and a 5-line WhatsApp introduction message asking for apprenticeship or helper work. Save screenshots.

NOS Code	NSQF Domain	Subtopic	Practical Task
TEL/N0404	Level of Responsibility	Daily Work Responsibility, Escalation and Quality Discipline	Create a daily responsibility checklist with 8 points such as attendance, intake documentation, safe handling, escalation, and final testing. Save a screenshot.
TEL/N0405	Level of Responsibility	30-Day Action Plan to Start Earning	Make a 30-day plan in your phone notes with weekly goals for learning, portfolio building, and shop outreach. Take a screenshot as final evidence.

Sector: Home Health Aide

Target Profile: High School, Metro City, Female

NSQF Qualification Path: Home Health Aide / Patient Care Assistant

- **NSQF Level:** 3.5
- **Notional Hours:** 180 Hours
- **NCrF Credits:** 6 Credits
- **Income Range:** ₹12000 - ₹18000

The Roadmap

Module 1: Foundations of Home Health Aide Work: Role, Safety, Communication, and Care Ethics

Portfolio Evidence Task: *Create and submit a smartphone photo set or short video showing a neatly organized home-care kit, a handwritten one-page daily care checklist, and a 60-second self-introduction explaining the role of a Home Health Aide, patient dignity, and basic infection prevention.*

NOS Code	NSQF Domain	Subtopic	Practical Task
HSS/N0101	Professional Theoretical Knowledge	Understanding the Home Health Aide Role and Scope of Work	Using your smartphone notes app, create a two-column list titled 'I Can Do' and 'I Must Report/Ask' with at least 10 points total for home health aide duties.
HSS/N9601	Aptitude, Mind-set, Soft Skills, Employment Readiness & Entrepreneurship Skills	Professional Behaviour, Empathy, and Patient Dignity	Record a 1-minute smartphone audio or video role-play introducing yourself to a patient, asking permission before helping, and speaking respectfully.
HSS/N0103	Professional Theoretical Knowledge	Basic Infection Prevention and Hand Hygiene	Practice the full handwashing sequence and upload 4 timestamped smartphone photos showing key steps: wetting, soaping, rubbing between fingers, and drying with a clean towel.
HSS/N9603	Broad Learning Outcomes	Basic Communication with Patients and Family Members	Create a smartphone note with 8 sample sentences for patient communication, including greeting,

NOS Code	NSQF Domain	Subtopic	Practical Task
			asking needs, offering help, giving reassurance, and reporting to family.
HSS/N9602	Aptitude, Mind-set, Soft Skills, Employment Readiness & Entrepreneurship Skills	Personal Readiness, Confidence, and Work Discipline	Make a 5-day personal discipline tracker on your smartphone for wake-up time, learning time, grooming, and task completion, then submit a screenshot at the end.

Module 2: Core Patient Care Skills for Daily Living Assistance

Portfolio Evidence Task: *Create and submit a smartphone video demonstration or photo sequence of a mock patient-care routine on a family volunteer or pillow setup, showing bed arrangement, safe hygiene support steps, feeding assistance setup, and comfort positioning, with spoken explanation of each step.*

NOS Code	NSQF Domain	Subtopic	Practical Task
HSS/N0110	Professional and Technical Skills/Expertise	Assisting with Personal Hygiene and Grooming	Using household items, set up a mock hygiene tray with soap, towel, comb, water container, and clean cloth, then take labeled smartphone photos of each item and its use.
HSS/N0111	Professional and Technical Skills/Expertise	Bed Making, Comfort Care, and Basic Positioning	Make a bed or sleeping area neatly and submit 3 smartphone photos showing before, after, and one side tuck or comfort arrangement.
HSS/N0112	Professional and Technical Skills/Expertise	Feeding Assistance, Hydration, and	Create a smartphone checklist for safe feeding assistance with at least 8

NOS Code	NSQF Domain	Subtopic	Practical Task
		Observation During Meals	points, including upright positioning, hand hygiene, small bites, and observation after feeding.
HSS/N0113	Broad Learning Outcomes	Mobility Support and Fall Prevention Basics	Walk through one room at home and identify 5 fall risks such as loose wires, wet floor, poor lighting, or clutter; submit a photo collage or note with corrections suggested.
HSS/N0114	Broad Learning Outcomes	Recording Daily Care Activities and Basic Observations	Create a one-day mock care record in your smartphone notes app covering time, task done, food/water given, mobility help, and any observation.

Module 3: Health Monitoring, Safety Response, and Home Care Support Practices

Portfolio Evidence Task: *Submit a smartphone-based emergency readiness pack containing: a screenshot of an emergency contact list, a mock symptom observation chart, a photo of a cleaned caregiving area, and a 90-second video explaining when to report urgent patient changes.*

NOS Code	NSQF Domain	Subtopic	Practical Task
HSS/N0120	Professional Theoretical Knowledge	Observing Common Warning Signs in Patients	Make a smartphone note listing 10 warning signs that must be reported immediately, grouped under breathing, behaviour, skin, eating, and movement.
HSS/N0121	Professional Theoretical	Measuring and Reporting Basic	Create a simple chart in your smartphone notes

NOS Code	NSQF Domain	Subtopic	Practical Task
	Knowledge	Health Parameters Conceptually	titled Temperature, Pulse, Respiration, Blood Pressure, and write what each indicates plus when to report concern.
HSS/N0122	Professional and Technical Skills/Expertise	Safe Home Environment, Cleaning Support, and Waste Handling	Clean and organize one small patient-style care corner at home and submit before-and-after smartphone photos showing bedding/surface arrangement and waste bin placement.
HSS/N0123	Broad Learning Outcomes	Emergency Awareness and Escalation	Prepare an emergency contact note on your smartphone with ambulance, family, nearby clinic, and supervisor placeholders, then take a screenshot as evidence.
HSS/N9605	Level of Responsibility	Confidentiality, Boundaries, and Responsible Care Conduct	Write a 6-point 'Caregiver Responsibility Pledge' in your smartphone notes and submit a screenshot.

Module 4: Employment Readiness, Work Responsibility, and Entry into the Home Care Market

Portfolio Evidence Task: *Create a job-ready smartphone portfolio containing a one-page resume, a sample daily care record, one proof photo from earlier modules, a list of services you can offer, and a 60-second introduction video for employers or families.*

NOS Code	NSQF Domain	Subtopic	Practical Task
HSS/N9606	Aptitude, Mind-set, Soft Skills,	Building a Beginner	Create a one-page resume on your

NOS Code	NSQF Domain	Subtopic	Practical Task
	Employment Readiness & Entrepreneurship Skills	Resume and Caregiver Profile	smartphone using any notes or document app and include name, location, education, strengths, and caregiving skills learned.
HSS/N9607	Aptitude, Mind-set, Soft Skills, Employment Readiness & Entrepreneurship Skills	Job Search Channels, Interviews, and Professional Introduction	Record a 60-second smartphone video introducing yourself as a beginner home health aide, mentioning availability, care skills, and willingness to learn.
HSS/N9608	Level of Responsibility	Work Scheduling, Reporting, and Taking Responsibility in Home Settings	Create a mock weekly work schedule on your smartphone with shift timing, travel buffer, meal break, and reporting time.
HSS/N9609	Level of Responsibility	Understanding Pay, Ethics, and Safe Work Conditions	Make a smartphone checklist titled 'Questions to Ask Before Accepting a Home Care Job' with at least 10 points.
HSS/N9610	Broad Learning Outcomes	Starting Small: Local Service Readiness and Reputation Building	Create a simple service list on your smartphone naming 6 tasks you can safely offer, such as companionship, feeding support setup, hygiene support preparation, bed arrangement, mobility observation, and daily record keeping.

Sector: Solar Panel Installation

Target Profile: Primary, Rural Area, Male

NSQF Qualification Path: Solar Panel Helper

- **NSQF Level:** 2.5
- **Notional Hours:** 60 Hours
- **NCrF Credits:** 2 Credits
- **Income Range:** ₹10000 - ₹14000

The Roadmap

Module 1: Solar Basics, Safety, Work Discipline, and Communication

Portfolio Evidence Task: *Create and submit a 1-minute smartphone video in English showing: (1) identification of 5 basic solar tools/materials from pictures or real items, (2) explanation of 3 electrical safety rules, and (3) a short customer greeting and self-introduction as a solar panel helper.*

NOS Code	NSQF Domain	Subtopic	Practical Task
ELE/N9401	Professional	What a Solar Panel Helper Does	Using your smartphone notes app, write 5 job duties of a Solar Panel Helper and record a 30-second voice note explaining the role in your own words.
	Theoretical Knowledge		
ELE/N9402	Professional	Basic Solar Energy Concepts	Search and save 6 images on your smartphone of solar panel system components. Create one labeled album or collage naming each part.
	Theoretical Knowledge		

NOS Code	NSQF Domain	Subtopic	Practical Task
ELE/N9921	Aptitude, Mind-set, Soft Skills, Employment Readiness & Entrepreneurship Skills	Electrical and Roof Safety Awareness	Create a smartphone checklist of 8 solar site safety rules and take a screenshot of the completed checklist.
ELE/N9922	Aptitude, Mind-set, Soft Skills, Employment Readiness & Entrepreneurship Skills	Work Discipline, Teamwork, and Following Instructions	Write 5 good work habits in your notes app and send yourself a mock WhatsApp message confirming reporting time, uniform readiness, and tool preparation.
ELE/N9403	Professional Theoretical Knowledge	Tool and Material Identification	Make a photo-based study sheet on your smartphone with at least 8 common solar tools/materials and their names.

Module 2: Site Preparation, Tools, and Basic Installation Support Skills

Portfolio Evidence Task: *Submit a smartphone photo collage or short video demonstrating a simulated installation support sequence using household items or diagrams: measuring an area, identifying tool use order, sorting hardware, and labeling DC/AC sides on a drawn solar setup.*

NOS Code	NSQF Domain	Subtopic	Practical Task
ELE/N9411	Professional and Technical Skills/Expertise	Using Measuring Tools and Basic Site Observation	Use a household measuring tape or a phone measurement app to measure a small roof-like or floor area and note the length and width in meters. Take a

NOS Code	NSQF Domain	Subtopic	Practical Task
			screenshot or photo of your measurement record.
ELE/N9412	Professional and Technical Skills/Expertise	Sorting, Carrying, and Protecting Solar Materials	Create a simple material handling chart in your notes app with 2 columns: 'Handle Carefully' and 'Can Be Bundled'. Add at least 8 items and take a screenshot.
ELE/N9413	Professional and Technical Skills/Expertise	Basic Fasteners, Mounting Parts, and Their Use	Search online images of 6 mounting hardware parts and create a labeled note or collage stating where each is used.
ELE/N9414	Broad Learning Outcomes	Introduction to DC and AC Side Identification	Draw a simple solar system flow on paper: panel to inverter to load/battery. Label DC and AC sections, then upload a photo of the drawing.
ELE/N9915	Broad Learning Outcomes	Basic Housekeeping and Waste Management at Site	Create a before-and-after cleaning plan in your smartphone notes for a mock worksite area with 6 housekeeping actions.

Module 3: Basic Electrical Support, Testing Awareness, and Installation Assistance

Portfolio Evidence Task: Upload a smartphone photo set containing: (1) a hand-drawn wiring path for a basic solar setup, (2) a labeled image of MC4 connector parts from online research, and (3) a safety checklist for assisting in cable routing and testing.

NOS Code	NSQF Domain	Subtopic	Practical Task
ELE/N9421	Professional and Technical Skills/Expertise	Solar Cables, Connectors, and Polarity Basics	Collect 4 screenshots or images showing solar cable, MC4 connector, positive marking, and negative marking. Create a labeled album on your smartphone.
ELE/N9422	Professional and Technical Skills/Expertise	Cable Routing, Tying, and Protection Support	Using rope, old wire, or string at home, simulate neat cable routing along a wall or board with safe spacing and 4 tie points. Take 2 photos as proof.
ELE/N9423	Broad Learning Outcomes	Testing Awareness: Multimeter and Continuity Support	Watch a beginner multimeter video and write 4 safe-use rules in your notes app. Take a screenshot of your notes.
ELE/N9424	Professional Theoretical Knowledge	Earthing and Basic Protection Awareness	Create a 5-item safety component list in your notes app covering earthing, breaker, fuse, SPD, and warning sign. Add one line on the purpose of each.
ELE/N9425	Professional and Technical Skills/Expertise	Assisting During Panel Positioning and Final Tightening	Draw or print a simple panel mounting sequence with 5 steps and record a 30-second explanation of the correct helper actions at each step.

Module 4: Job Readiness, Customer Conduct, Documentation, and Entry to Work

Portfolio Evidence Task: *Prepare and submit a smartphone job-readiness pack containing: (1) one-page biodata, (2) 5 photos/screenshots of your learning evidence*

from previous modules, (3) a sample daily work report, and (4) a 45-second self-introduction video for applying to a solar installer or contractor.

NOS Code	NSQF Domain	Subtopic	Practical Task
ELE/N9931	Aptitude, Mind-set, Soft Skills, Employment Readiness & Entrepreneurship Skills	Customer Interaction and Respectful Behavior at Site	Record a 30-second role-play video greeting a customer, asking permission before entering the work area, and answering politely.
ELE/N9932	Level of Responsibility	Daily Work Reporting and Photo Documentation	Make a sample daily report in your notes app with date, site name, work done, materials handled, safety issue, and supervisor name. Take a screenshot.
ELE/N9933	Aptitude, Mind-set, Soft Skills, Employment Readiness & Entrepreneurship Skills	Finding Local Work Opportunities in Solar	Search on your smartphone and list 5 nearby possible work sources such as solar shops, electricians, contractors, or service providers. Save contact names or screenshots where possible.
ELE/N9934	Aptitude, Mind-set, Soft Skills, Employment Readiness & Entrepreneurship Skills	Creating a Simple Biodata and Work Portfolio on Smartphone	Create a one-page biodata in your smartphone notes or document app and attach 3 screenshots/photos of your practice work from this roadmap.
ELE/N9935	Level of Responsibility	Responsibility, Reliability, and	Write a personal 30-day action plan with reporting time, weekly learning goal,

NOS Code	NSQF Domain	Subtopic	Practical Task
		Growth Path in Solar Work	and 3 responsibility promises. Take a screenshot of the plan.

Sector: Boutique Tailoring

Target Profile: Primary, Village, Female

NSQF Qualification Path: Blouse Stitching Assistant

- **NSQF Level:** 2.5
- **Notional Hours:** 60 Hours
- **NCrF Credits:** 2 Credits
- **Income Range:** ₹8000 - ₹14000

The Roadmap

Module 1: Foundation for Blouse Stitching: Basics, Safety, Confidence and Work Habits

Portfolio Evidence Task: *Create and submit a smartphone photo set showing: a labelled fabric sample sheet, basic sewing tools arranged safely, and a handwritten daily practice plan for 7 days.*

NOS Code	NSQF Domain	Subtopic	Practical Task
AMH/N0101	Professional Theoretical Knowledge	Understanding the role of a Blouse Stitching Assistant	Write in a notebook 5 duties of a blouse stitching assistant and take a clear smartphone photo of the page.

NOS Code	NSQF Domain	Subtopic	Practical Task
AMH/N0102	Professional Theoretical Knowledge	Identifying fabrics, lining, thread and basic materials	Collect 3 fabric scraps from home or nearby tailor, label them as thick, medium, or thin in your notebook, and upload photos of the scraps with labels.
AMH/N0103	Professional Theoretical Knowledge	Tools, machine parts and safe handling	Make a 1-page tool chart in your notebook with at least 8 tool names and their use, then take a photo and submit it.
AMH/N0110	Aptitude, Mind-set, Soft Skills, Employment Readiness & Entrepreneurship Skills	Work discipline, patience and confidence building	Record a 30-second self-video on your smartphone saying your tailoring goal, practice time, and one strength you will build.
AMH/N0104	Broad Learning Outcomes	Basic measurement awareness and body areas used in blouse work	Draw a simple blouse body outline in your notebook and mark 7 measurement points, then submit a photo.

Module 2: Core Sewing Preparation: Measurement, Marking, Cutting Support and Hand Skills

Portfolio Evidence Task: *Submit a smartphone photo set of a practice file containing one labelled measurement sheet, one paper blouse outline with markings, and one hand-sewn fabric sample showing running stitch and hemming.*

NOS Code	NSQF Domain	Subtopic	Practical Task
AMH/N0201	Professional and Technical	Reading and recording blouse	Create a sample blouse measurement form in

NOS Code	NSQF Domain	Subtopic	Practical Task
	Skills/Expertise	measurements	your notebook with fields for bust, waist, shoulder, sleeve, armhole, front neck, back neck, and length; take a photo.
AMH/N0202	Professional and Technical Skills/Expertise	Marking lines, seam allowance and pattern awareness on paper	Use old newspaper or notebook paper to draw a simple front and back blouse panel with seam allowance markings and submit photos.
AMH/N0203	Professional and Technical Skills/Expertise	Basic hand stitches used in tailoring support work	Using needle, thread, and scrap cloth, make a small sample with running stitch and hemming stitch, then upload clear close-up photos.
AMH/N0204	Broad Learning Outcomes	Supporting fabric cutting and sorting components	Cut paper pieces labelled front, back, sleeve, and lining for a sample blouse set and place them in order; submit a photo.
AMH/N0205	Aptitude, Mind-set, Soft Skills, Employment Readiness & Entrepreneurship Skills	Cleanliness, storage and material saving habits	Arrange a small sewing corner or box at home for tools and scraps, then submit before-and-after photos or one final organized photo.

Module 3: Blouse Construction Support: Assembly Steps, Finishing and Quality Checking

Portfolio Evidence Task: *Create and submit a stitched practice sample pack with at least 3 items photographed clearly: one joined seam sample, one neckline or sleeve edge sample, and one hook/hemming finishing sample.*

NOS Code	NSQF Domain	Subtopic	Practical Task
AMH/N0301	Professional Theoretical Knowledge	Sequence of blouse assembly	Write the blouse stitching sequence in 6 to 8 steps in your notebook and submit a photo.
AMH/N0302	Professional and Technical Skills/Expertise	Joining seams and edge finishing on practice fabric	Join two fabric scraps by hand stitch, trim the edge neatly, and upload front and back photos of the sample.
AMH/N0303	Professional and Technical Skills/Expertise	Neckline, sleeve edge and hemming support	Create one small curved edge sample and one straight hem sample on scrap cloth and submit close-up photos.
AMH/N0304	Broad Learning Outcomes	Hooks, loops, simple closures and final appearance check	Attach one hook-and-eye or make a simple thread loop on scrap fabric and upload a clear photo.
AMH/N0305	Broad Learning Outcomes	Recognizing common stitching mistakes and correction methods	Make a notebook page with 4 common blouse stitching mistakes and their correction, then submit a photo.

Module 4: Work Readiness, Customer Support and Income Pathway in Boutique Tailoring

Portfolio Evidence Task: *Prepare and submit a smartphone portfolio containing: 5 best practice photos, a simple service price list, one customer measurement form*

sample, and a one-page plan for earning from blouse assistance or alterations in your village.

NOS Code	NSQF Domain	Subtopic	Practical Task
AMH/N0401	Aptitude, Mind-set, Soft Skills, Employment Readiness & Entrepreneurship Skills	Talking to customers politely and noting their needs	Write a sample customer conversation in your notebook with greeting, measurement note, design choice, and delivery date; submit a photo.
AMH/N0402	Aptitude, Mind-set, Soft Skills, Employment Readiness & Entrepreneurship Skills	Basic costing, pricing and income planning for village tailoring work	Make a simple price list in your notebook for 5 services such as hook fixing, hemming, side alteration, sleeve adjustment, and blouse assistance; submit a photo.
AMH/N0403	Broad Learning Outcomes	Using smartphone for portfolio, WhatsApp enquiries and local promotion	Create a phone gallery album named 'Blouse Work Samples' with at least 5 labelled photos of your practice work and take a screenshot as proof.
AMH/N0404	Level of Responsibility	Taking responsibility for quality, deadlines and honest work	Write and sign a personal work promise with 5 points on quality, honesty, and timely delivery, then submit a photo.
AMH/N0405	Level of Responsibility	Next-step pathway: assistant work, alteration jobs	Make a 3-month action plan in your notebook with weekly goals for practice, local contact

NOS Code	NSQF Domain	Subtopic	Practical Task
		and self-employment growth	building, and first paid work; submit a photo.

Sector: Digital Marketing / SEO

Target Profile: Graduate, Metro City, Any

NSQF Qualification Path: SEO Executive Trainee

- **NSQF Level:** 4.0
- **Notional Hours:** 120 Hours
- **NCrF Credits:** 4 Credits
- **Income Range:** ₹15000 - ₹22000

The Roadmap

Module 1: SEO Foundations, Search Mind-set, and Professional Work Habits

Portfolio Evidence Task: *Create and submit a 2-page mobile-friendly Google Doc or PDF titled 'How Search Engines Work + My SEO Career Plan' containing: definitions of SEO, on-page/off-page/technical SEO, one sample keyword list for a local business, and a weekly self-study schedule screenshot.*

NOS Code	NSQF Domain	Subtopic	Practical Task
MKT/N0101	Professional Theoretical Knowledge	What SEO Is and How Search Engines Work	Create a note on your smartphone with 10 bullet points explaining crawling, indexing, ranking, SERP, keyword, backlink, meta title, meta description, search

NOS Code	NSQF Domain	Subtopic	Practical Task
			intent, and organic traffic. Take a screenshot and save it in a folder named 'SEO Portfolio'.
MKT/N0102	Professional Theoretical Knowledge	Types of SEO and Basic Terminology	Using Google Docs on your phone, make a 3-column table with On-Page, Off-Page, and Technical SEO and add at least 5 examples under each. Export or screenshot the table.
MKT/N0103	Professional Theoretical Knowledge	Search Intent and User Thinking	Pick one business type in your city, such as a gym, bakery, or dentist. List 12 keywords and label each by intent type in a mobile note or sheet. Save screenshots.
MKT/N0120	Aptitude, Mind-set, Soft Skills, Employment Readiness & Entrepreneurship Skills	Professional Discipline, Learning Routine, and Communication Basics	Create a 2-week study tracker in Google Sheets or Notes on your smartphone with dates, topic, time spent, and status. Also draft one polite WhatsApp-style message updating a manager on completed SEO work.

Module 2: Keyword Research, Content Mapping, and On-Page SEO Execution

Portfolio Evidence Task: *Create a complete mobile SEO content brief for one sample business with: 20 target keywords, intent labels, one page title, one meta description,*

one URL slug, heading outline, and internal link suggestions. Submit as screenshots or one PDF.

NOS Code	NSQF Domain	Subtopic	Practical Task
MKT/N0201	Professional and Technical Skills/Expertise	Keyword Research Using Smartphone-Friendly Tools	Choose a local business category and gather 20 keywords using Google autocomplete, related searches, and competitor page titles. Enter them into a Google Sheet with columns for keyword, intent, and page type.
MKT/N0202	Broad Learning Outcomes	Keyword Clustering and Page Mapping	Take your 20-keyword list and group it into at least 4 clusters. Create a simple mapping sheet showing which keyword group belongs to homepage, service page, category page, or blog page.
MKT/N0203	Professional and Technical Skills/Expertise	Writing SEO Titles, Meta Descriptions, and Headings	Write 5 SEO title tags, 5 meta descriptions, and 3 H1-H2 heading structures for the business you selected. Keep them in a Google Doc and take screenshots.
MKT/N0204	Professional and Technical Skills/Expertise	Basic On-Page SEO Review of Existing Pages	Open one existing business website on your smartphone and review any 3 pages. For each page, note whether title, meta, heading, keyword use, image alt text, and internal links appear optimized or missing.

Module 3: Technical SEO Basics, Off-Page SEO, and Performance Tracking

Portfolio Evidence Task: *Prepare and submit a beginner SEO audit report for one real website using your smartphone. The report must include screenshots of mobile speed check, indexing check, page title review, broken-link observation if any, and 5 backlink or citation opportunities.*

NOS Code	NSQF Domain	Subtopic	Practical Task
MKT/N0301	Professional and Technical Skills/Expertise	Technical SEO Basics for Non-Coders	Using your smartphone browser, inspect one website for HTTPS, mobile responsiveness, page load feel, and whether pages appear indexed using a 'site:domain.com' search. Record findings in a note with screenshots.
MKT/N0302	Broad Learning Outcomes	Introduction to Search Console, Analytics Concepts, and SEO Metrics	Create a one-page glossary in Google Docs defining clicks, impressions, CTR, average position, bounce rate, session, and conversion. Add one sentence on what action you would take if each metric drops.
MKT/N0303	Professional and Technical Skills/Expertise	Off-Page SEO, Backlinks, and Local Citation Basics	Choose one local business type and list 10 possible backlink or citation sources such as local directories, blogs, associations, maps, or social profiles. Mark each as high, medium, or low relevance.
MKT/N0304	Broad Learning Outcomes	SEO Audit Thinking and Priority Setting	From your review of one website, write a list of 8 SEO issues and rank them as High, Medium, or Low priority with a

			one-line reason for each. Save as a screenshot or PDF.

Module 4: SEO Work Simulation, Client Readiness, and Entry-Level Career Launch

Portfolio Evidence Task: *Build and submit a complete trainee portfolio folder containing: your SEO glossary, keyword sheet, on-page review, mini audit report, one sample outreach message, one client update message, and a 1-page resume tailored to SEO Executive Trainee roles.*

NOS Code	NSQF Domain	Subtopic	Practical Task
MKT/N0401	Aptitude, Mind-set, Soft Skills, Employment Readiness & Entrepreneurship Skills	SEO Reporting and Client Communication	Write one sample weekly SEO update message for a client or manager covering completed tasks, findings, next steps, and one risk or dependency. Save as a note screenshot.
MKT/N0402	Aptitude, Mind-set, Soft Skills, Employment Readiness & Entrepreneurship Skills	Freelance and Job Market Readiness for SEO Trainees	Create a mobile-friendly 1-page resume in Google Docs and add 4 portfolio items from this roadmap. Also draft a 3-line self-introduction for job applications.

NOS Code	NSQF Domain	Subtopic	Practical Task
MKT/N0403	Level of Responsibility	Ownership, Accuracy, and Responsible SEO Practice	Create a personal 'SEO Work Ethics Checklist' with 8 points, including honesty in reporting, no black-hat SEO, data privacy, deadline discipline, and asking for help when stuck. Save as screenshot or PDF.
MKT/N0404	Level of Responsibility	Mock Application and Outreach Practice	Draft and save 2 job application messages and 1 freelance outreach message for a small business needing SEO help. Each message should be under 120 words and mention your sample audit or keyword brief.
